Quality: Mostly plain.

Demand: Good demand at firm to generally easier rates.

Buyers: Blenders were selective. Loose Tea Traders lent a fairly good support.

LEAF-CTC:

Brokens: A small weight of cleaner types offered sold well at generally little easier levels. All others were firm to upto Tk. 5/= easier following quality.

Fannings: A handful of the clean good liquoring types available were well absorbed mostly by the Blenders at easier rates of Tk 3/5. Rest sold well at firm to upto Tk. 5/= easier than last.

Dust: Well made good liquoring descriptions sold well at firm to occasionally little dearer rates. Others mostly held on to last rates. CD's were a good market especially the clean good liquoring types.

Comment: Quality on offer was mostly plain and end season type which however, sold well at firm to easier rates following quality. Loose Tea Traders were fairly active whilst Blenders were rather selective. A small weight of the well made good liquoring types available were absorbed mostly by the Blenders. Dusts were a good market.
