**Dust:** Select few popular best types sold well a around last levels. Others were easier by Tk 3/5. Plainer types were generally neglected and where sold, were heavily discounted.

**Comment:** Offering this week was the largest so far this season and comprised mostly of plain and poorer types. Support emanated mainly from the Blenders which however, was generally confined to the well made good liquoring types on offer. Loose Tea Traders were barely active. Demand slackened as sale progressed resulting in heavier withdrawals and substantially lower rates.
