## **LEAF-CTC:**

**Brokens:** Well made good liquoring types were a good market and generally sold at firm to little dearer rates. Select few popular best types inclined substantially following competition. Mediums sold well at about firm raets. Plainer types were easier.

<u>Fannings:</u> Best and the below best types were keenly sought after by all sections of the market and sold at dearer levels than last with a few lines gaining substantially. Medium and the plainer sorts met with a fair demand at firm to easier rates following quality.

<u>Dust:</u> Met with a better demand than last. All clean, good liquoring types were a dearer market whilst mediums sold well at around last levels. Plainer types were firm to little easier. CD's were a strong feature particularly the primary types.

<u>Comment:</u> This was the first sale of the year 2022. Demand was apparently little better than last particularly for the clean good liquoring types. Dusts were a good market. There were however, some withdrawals.
