Dust: A handful of the best types offered met with a good demand and generally sold at firm rates. Others met with only a fair demand and sold at easier rates with a fair weight remaining unsold. CD's were easier.

Comment: Blenders continue to be the major contenders and accounted for most of the teas sold. Prices were generally easier except for select few popular well made types which were about firm. Teas from the Northern District however, sold at around last levels. Withdrawals were substantial.
