(Last year in brackets)

Quality: Generally plain.

Demand: Fairly good demand at easier rates.

Buyers: Blenders were active. Loose Tea Traders lent fair support.

LEAF-CTC:

Brokens: A limited weight of cleaner sorts offered were readily absorbed by the Blenders and the Loose Tea Traders at about firm levels. Below best types were easier by the 3/5. Mediums met with a fair demand but eased by Tk 5/7 and occasionally more. Plainer types were neglected and where sold, were discounted.

Fannings: Likewise, a small weight of the better types offered met with a fairly strong demand and sold around last levels. Others were easier by Tk 3/5. Medium and the plainer types shed more with fair withdrawals.

Bought-Leaf Teas: Selective demand resulting in fairly large withdrawals.

Dust: A small weight of the clean good liquoring types available sold well at firm to little dearer rates. Rests were firm to little easier following quality. There were however, a few withdrawals.

Comment: Demand was again mostly confined to the limited weight of the better types on offer which were mostly firm on last. Others met with a fair demand but generally eased in value. There were fair withdrawals. Dusts were a good market especially the cleaner sorts.
