Quality: Fairly useful.

Demand: Fairly strong demand.

Buyers: Blenders operated actively whilst Loose Tea Traders lent good support.

LEAF-CTC:

Brokens: Well made good liquoring types were readily absorbed at mostly firm rates. Occasional lines moved up slightly following competition. Below best and the mediums sold well at around last levels. Plainer types met with a fair demand at irregularly little easier rates.

Fannings: Met with a fairly strong demand. Clean bright liquoring types were generally firm to Tk. 5/= dearer whilst others were firm.

Bought-Leaf Teas: Met with a little improved demand. Prices were generally firm on last. Select few better liquoring types fetched more.

Dust: Met with a good demand. Well made brighter liquoring types were a strong feature whilst others were mostly firm on last. Cleaner CD's were a fairly strong market.

Comment: Demand continued to be fairly strong especially for the brighter liquoring types which often witnessed competition. Others were also a good seller. Dusts, especially the cleaner sorts, were well supported by all sections of the market. Plainer types met with a slightly better demand.
